

The Timber Bubble That Burst

Author : Joe P Matthey / **Category :** Business & Economics /
Total Pages : 120 pages

[Download The Timber Bubble That Burst PDF](#)

Summary : Free the timber bubble that burst pdf download - this is a book about bubble prices and their consequences in the timber industry of the pacific northwest from 1979-1984 bubble prices--unusual and rapid rises and eventual drops in the prices of a commodity--have been of theoretical interest to economists for many years this study examines the unusual movements in the price of federal timber and the subsequent recession in the northwest when timber buyers delayed harvests in order to postpone the realization of their losses on the contracts matthey argues that it was not so much the actions of the federal reserve which had been widely blamed for the crisis but rather the actions of the buyers themselves that caused the recession

Pusblisher : Oxford University Press on 1990-11-15 / **ISBN :** 0195362705
