

HOW TO USE THIS BOOK

180 Days of Math for Third Grade offers teachers and parents a full page of daily mathematics practice activities for each day of the school year.

Easy to Use and Standards-Based

These activities reinforce grade-level skills across a variety of mathematical concepts. The questions are provided as a full practice page, making them easy to prepare and implement as part of a classroom morning routine, at the beginning of each mathematics lesson, or as homework.

Every third-grade practice page provides 10 questions, each tied to a specific mathematical concept. Students are given the opportunity for regular practice in each mathematical concept, allowing them to build confidence through these quick standards-based activities.

Question	Mathematics Concept	NCTM Standard
1	Addition or Subtraction	Understands meanings of operations and how they relate to one another. Computes fluently and makes reasonable estimates.
2	Multiplication	Understands various meanings of multiplication and division. Develops fluency in adding, subtracting, multiplying, and dividing whole numbers. Understands numbers, ways of representing numbers, relationships among numbers, and number systems.
3		
4	Division or Number Sense	
5	Place Value or Fractions, Decimals, and Money	Understands numbers, ways of representing numbers, relationships among numbers, and number systems. Computes fluently and makes reasonable estimates.
6	Algebra and Algebraic Thinking	Understands patterns, relations, and functions. Represents and analyzes mathematical situations and structures using algebraic symbols.
7	Measurement	Understands measurable attributes of objects and the units, systems, and processes of measurement. Applies appropriate techniques and formulas to determine measurements.
8		
9	Geometry or Data Analysis	Analyzes characteristics and properties of two-dimensional and three-dimensional geometric shapes and develops mathematical arguments about geometric relationships. Formulates questions that can be addressed with data and collects, organizes, and displays relevant data to answer them.
10	Word Problems/Logic Problems or Mathematical Reasoning	Builds on mathematical knowledge through problem solving. Applies and adapts a variety of appropriate strategies to solve problems.

Standards are listed with the permission of the National Council of Teachers of Mathematics (NCTM). NCTM does not endorse the content or validity of these algorithms.

Daily Math Practice For Third Grade Week 2
