Summary : Free jewish responsibility for the death of jesus in luke-acts pdf download - for over a century new testament scholars have explored the issue of possible antisemitism in luke-acts especially because the author apparently blames the jews for the death of jesus this monograph offers a fresh analysis of this question revealing a different emphasis that among the jews only those associated with jerusalem especially the sanhedrin are responsible for jesus death luke s israel is in fact divided in response to jesus not monolithically opposed to him furthermore the ascription of responsibility to the people of jerusalem in acts widely regarded as a lukan creation in fact is more likely to have been based on sources independent of the synoptics a consideration of ancient literature concerned with the deaths of innocent victims further suggests a likely sitz im leben for the transmission of material ascribing responsibility for jesus death
