Summary : Free phenomenology of life in a dialogue between chinese and occidental philosophy pdf download - to introduce this collection of research studies which stem from the programs conducted by the world phenomenology institute we need say a few words about our aims and work this will bring to light the significance of the present volume the phenomenological philosophy is an unprejudiced study of experience in its entire range experience being understood as yielding objects experience moreover is approached in a specific way such a way that it legitimizes itself naturally in immediate evidence as such it offers a unique ground for philosophical inquiry its basic condition however is to legitimize its validity in this way it allows a dialogue to unfold among various philosophies of different methodologies and persuasions so that their basic assumptions and conceptions may be investigated in an objective fashion that is instead of comparing concepts we may go below their differences to seek together what they are meant to grasp we may in this way come to the things themselves which are the common objective of all philosophy or what the great chinese philosopher wang yang ming called the investigation of things it is in this spirit that the institute's programs include a cross-cultural dialogue meant to bring about a profound communication among philosophers in their deepest concerns rising above artificial cultural confinements such dialogues bring scholars thinkers and human beings together toward a truly human community of minds our institute unfolds one consistent academic program
