

## Green Chemistry Laboratory Manual For General Chemistry

**Author :** Sally A Henrie / **Category :** Science / **Total Pages :** 384 pages

 [Download Green Chemistry Laboratory Manual For General Chemistry PDF](#)

**Summary :** Free green chemistry laboratory manual for general chemistry pdf download - green chemistry involves designing novel ways to create and synthesize products and implement processes that will eliminate or greatly reduce negative environmental impacts the green chemistry laboratory manual for general chemistry provides educational laboratory materials that challenge students with the customary topics found in a general chemistry laboratory manual while encouraging them to investigate the practice of green chemistry following a consistent format each lab experiment begins with objectives and prelab questions highlighting important issues that must be understood prior to getting started this is followed by detailed step-by-step procedures for performing the experiments students report specific results in sections designated for data observations and calculations once each experiment is completed analysis questions test students comprehension of the results additional questions encourage inquiry-based investigations and further research about how green chemistry principles compare with traditional more hazardous experimental methods by placing the learned concepts within the larger context of green chemistry principles the lab manual enables students to see how these principles can be applied to real-world issues performing laboratory exercises through green experiments results in a safer learning environment limits the quantity of hazardous waste generated and reduces the cost for chemicals and waste disposal students using this manual will gain a greater appreciation for green chemistry principles and the possibilities for future use in their chosen careers
