

Practice 104

Latasha, Julia, Jenica, and Hector made paper airplanes. Each person threw his or her airplane and measured the distance it flew.

- Whose airplane flew the shortest distance?
- Whose airplane flew more than 45 cm?
- Whose airplanes flew longer distances—Latasha's and Julia's or Hector's and Jenica's?

Paper Airplanes	
Latasha	350 mm
Julia	31 cm
Jenica	49 cm
Hector	510 mm

- Antony Art went for a walk. He climbed over the tall mountains, walked under the flying dragon, and climbed over the stinky shoe. How far did Antony Art walk in all? Write the answer in millimeters and centimeters.

- Edwina, Eugenia, and Edgar were having a jumping contest. Edwina jumped 310 cm. Eugenia jumped 3.955 mm. Edgar jumped 3 meters. Who jumped the farthest distance?

In the chart, convert the quarts to the nearest gallon. Then answer the questions. Remember, 4 quarts equal 1 gallon.

Country	Milk Consumed	Gallons
6. Finland	162 quarts	_____
7. Iceland	160 quarts	_____
8. Ireland	164 quarts	_____
9. Norway	158 quarts	_____
10. Ukraine	141 quarts	_____

- In which country do the people drink the most milk?
- In which country do the people drink the least amount of milk?
- What is the average amount of milk consumed by the people in those five countries? _____

Measurement Word Problems With Metric And Standard Measures Practice

Author : / Category :Mathematics / Total Pages : 4 pages

[Download Measurement Word Problems With Metric And Standard Measures Practice PDF](#)

Summary : Free measurement word problems with metric and standard measures practice pdf download - help your students with their mathematical fluency using grade-specific practice worksheets the problems give students the important repeated practice for key mathematical skills and concepts these are great for guided practice or independent work

Pusblisher : Teacher Created Materials on 2014-01-01 / **ISBN :** 9781425885229
