# New Concepts For Parallel Object-Relational Query Processing

**Author :** Michael Jaedicke / **Category :** Computers / **Total Pages** : 161 pages

[Download New Concepts For Parallel Object-Relational Query Processing PDF](#)

**Summary :** Free new concepts for parallel object-relational query processing pdf download - during the last few years parallel object-relational database management systems have emerged as the leading data management technology on the market these systems are extensible by user-defined data types and user-defined functionality for the data this work focuses on the efficient parallel execution of user-defined functionality the main contributions describe techniques to support data parallelism for user-defined scalar and aggregate functions and intra-function parallelism for the execution of a scalar function on a large object and a new technology to provide extensibility with regard to new set-oriented database operations that can efficiently implement user-defined functionality in parallel object-relational database management systems
